About the Company

Atlanta Gold Inc. holds through its 100% owned subsidiary, Atlanta Gold Corporation, leases, options or ownership interests in its Atlanta properties which comprise approximately 2,159 acres (8.74 square kilometres) located 90 air kilometers east of Boise, in Elmore County, Idaho. A long history of mining makes Atlanta very suitable for development of new mining projects. The Company is focused on advancing its core asset, Atlanta, towards mine development and production.

The Company is also focused on advancing its exploration and processing methods on the Neal Property, which is located approximately 15 miles from Boise, Idaho and comprises approximately 192 acres (0.78 square kilometres). The Neal Property's geology is similar to that of the Atlanta Project and it provides the Company with all-season access to further refine the processing equipment and procedures. In June 2014, Knife River assigned certain of its rights and obligations under its lease with the owner of the Neal Property to AGC. AGC staked an additional seven contiguous claims on public land that was open to mineral entry.
